

Match and stretch

Your child's language

- If your child says a word that is clear repeat it back and add another word **match and stretch**
- If your child says a word that is not clear say the word clearly back to them. Then say the word again and add another word **match and stretch**

Remember to match and stretch when...

playing together, looking at a book together, doing daily activities

when going to the supermarket, having a snack or meal,
bathing your child
